

# Project: Comprehensive Test Project

Open Items: 9

Defect 1:

Status: Open

Creator: testadmin

Open defect with basic details.

Creation Date: 2025-06-03 06:06:41

Open Items (continued): 8

Defect 2:

Status: Open

Creator: testadmin

Open defect with a marked PDF drawing (test\_drawing1.pdf).

Marked Drawing View:

Creation Date: 2025-06-03 06:06:41

Open defect with a marked PDF drawing (test\_drawing1.pdf).

Complex PDF

Open Items (continued): 7

Defect 3:

Status: Open

Creator: testadmin

Open defect with a marked complex PDF (complex\_drawing.pdf).

Marked Drawing View:

Creation Date: 2025-06-03 06:06:41

Open defect with a marked complex PDF

Open Items (continued): 6

Defect 4:

Status: Open  
Creator: testadmin  
Open defect with a PNG image and a contractor comment that also has an image.

Work in progress. See attached photo.

Date: 2025-06-03 06:06:41

Open Items (continued): 5

Defect 5:

Status: Open

Creator: testadmin

Open defect with a corrupt image.

Attached Images:

[Image not available: corrupt\_image.jpg (Format Error)]

Creation Date: 2025-06-03 06:06:41

Open Items (continued): 4

Defect 6:

Status: Open

Creator: testadmin

Open defect with a marked non-PDF file (fake\_drawing.pdf).

Creation Date: 2025-06-03 06:06:41

Open Items (continued): 3

Defect 7:

Status: Open  
Creator: testadmin

This is a very long description designed to test text wrapping within the PDF report. It needs to be sufficiently lengthy to ensure that multiple lines are generated, and ideally, it should push the boundaries of the available column width. It needs to be sufficiently lengthy to ensure that multiple lines are generated, and ideally, it should push the boundaries of the available column width. It needs to be sufficiently lengthy to ensure that multiple lines are generated, and ideally, it should push the boundaries of the available column width. It needs to be sufficiently lengthy to ensure that multiple lines are generated, and ideally, it should push the boundaries of the available column width. It needs to be sufficiently lengthy to ensure that multiple lines are generated, and ideally, it should push the boundaries of the available column width. It needs to be sufficiently lengthy to ensure that multiple lines are generated, and ideally, it should push the boundaries of the available column width. End of long description.

Second comment by contractor, this also needs to be long enough to properly test how text wrapping behaves in the designated comment area of the PDF report. Let's add some more words.

Date: 2025-06-03 06:06:41

Open Items (continued): 2

Item 8 (Checklist: General Safety Checks):

Status: Open

Verify all safety guards are in place.

Creation Date: 2025-06-03 06:06:41

**Open Items (continued): 1**  
**Item 9 (Checklist: General Safety Checks):**

Status: Open

Emergency exits clear.

Comments:

Blocked by temporary storage, needs addressing.

Creation Date: 2025-06-03 06:06:41

**Closed Items: 3**

**Closed Items (continued): 3**  
**Item 10 (Checklist: General Safety Checks):**

Status: Closed

Fire extinguishers inspected.
